

Keeex PR

Certified press release and financial communication

Keeex PR allows you to tackle fake news and reduce risk by securing your press releases and financial communication. Keeex embedded digital signature technology coupled with Blockchain makes it possible to certify integrity and origin of any document.

How does it work ?

Why choose Keeex PR?

Quick and simple,
don't modify your
current process

Verifiable on all
devices

Verification windows
can be hosted on your
website

Strengthen your brand
image with an
innovative solution

Technology

- Keeex technology allows any file to be secured and valued through a digital signature including proof of integrity, digital identity, legal timestamp... Trust is embedded into files!
- Blockchain makes it possible to guarantee the existence of a file at a given date. Blockchain can be viewed as a secure and distributed ledger that indelibly records transactions.

GIVE PROBATIVE VALUE TO ALL YOUR PROCESSES, DOCUMENTS AND DATA
